Subject: RE: Ocean Acidification

I asked Mike to do 11th instead, but I think 13th works better for him. The agenda for the Cu workshop has not been finalized yet, however, I think most of the implementation discussion will be on 14th but would be good to have you listen in on most of the 13th, if possible (so if Mike can't change it coming in late would be OK I think).

Hi Mike,

Rochelle is hosting a workshop May 13 and 14, so I don't think that time will work for her. She asked me to participate in it, but the agenda hasn't been developed yet, so I don't know what time yet. Rochelle, would another day besides May 13 be better?

Sorry Mike, I was out yesterday afternoon, so didn't see Jan's email before you replied to her to let you know the 13th wasn't great.

jill

Can we tentatively set May 13th from 9-11 at the EPA office at 6th and University?

Also, would you mind if we invited Dick Feely to attend, if he is available. We thought it would be good to also understand better the work NOAA is doing related to OA.

Thanks.

Hi Mike,
For me and Terrie, the best dates would be 11 and 13 May.
thanks,
Jan

Hi Mike,
Yes, thanks, it was great seeing you as well. Thank you for your email and great idea.

Terrie Klinger (cc'd here) and I would most definitely appreciate the opportunity to meet with you all again, to update you on the work the Washington OA Center is doing.

Let me circle with Terrie and a few other key WOAC people, like the postdoc you mentioned, to find optimal times. Fortunately I am around those two weeks, excepting 15, 18, 19 May.

Best regards,
Jan

Jan,

Good to see you at the OA meeting last Wednesday.

As you may recall we had a meeting in August last year where you came to EPA's offices and we discussed work you and your colleagues were doing. We specifically discussed a post-doc that you were hiring to work on OA issues.

A lot has happened since August and we thought it would be good to reconvene to discuss both our recent work and our potential participation in a meeting you are having at the end of May at the UW.

We were thinking of trying to find a time during the weeks of May 11th or May 18th to meet.

Are there any times during those weeks that would work for you?

Thanks.
